Dear Colleague,

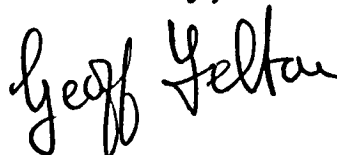

ICOSI Sampler

At the last STAG meeting in Brussels, I promised to make available copies of our internal report on the performance of the ICOSI air sampler, which we obtained through our friends at Reemtsma. This is now enclosed for your interest.

I also enclose a copy of a note on a meeting of UK users of the Thermal Energy Analyser with a scientific representative of Thermo Electron Inc. At this meeting, a number of new techniques available, or under development, were described and the note summarises these.

With kind regards,

Yours sincerely,

D. G. FELTON

Encs.
