Dear Charles:

Re: PM-1342

NOTED

SEP 10 1990

Enclosed for the inventors' review is a copy of a revised partial specification for the above-identified case. The revised specification is based on my examination of the rotary table on July 6, 1990, and the assembly drawings provided by Mr. James DeBlasio.

In light of the complex nature of this case, I will arrange to visit with Mr. Dickerson at Swanson-Erie to examine the linear table embodiment. At that time, I hope to discuss with Mr. DeBlasio or Mr. Dickerson the intricacies of several of the assembly drawings which were not available during my July visit to Richmond.

I would greatly appreciate your sending copies of the enclosed specification to the inventors so that we can correct and finalize the rotary table embodiment of the specification during my visit.

If you have any questions or comments regarding this case, please do not hesitate to call me.

Best regards,

Nicola A. Pisano
