Hi Melissa,

Attached are two slides. I threw in one that also has OxyContin. The dose buckets are a little different, but I think they are cleaner and easier to read. What do you think? I can easily make the dose ranges whatever works best for your training.

Julie

Subject: Question for you

Hi Julie:

I am working on the content for our speaker training. I think you probably already did this analysis. Do you have the type of data below for EXALGO vs Opana ER? Could you send it to me? Thanks for your help!
