Sue, could you coordinate with Larry on the following search? We need newspaper articles or anything else detailing 1) federal PAC contributions (seems to me the W.Post does this every year) 2) the players and \$\$ involved in this year's health care reform debate (like when PIRG released a report this summer saying XX million had been spent by the insurance industry to fight health care....)

I need this -- and whatever else Larry has -- just after the 12:30 CBS interview tomorrow. That when I need to get everyone together (please invite Chris Montague) so we can figure out what we've got and how we are going to distribute it in advance on AMA's Tuesday publication.

Thanks.
