DAWSON RESEARCH CORPORATION

Protocol Change Order No. 2

Protocol LRC-5A

Date 6-10-81Subject Flourescein StainAuthorized By Dr. Connie StoneDate 6-4-81Method Verbal-Phone
(Means of communication)Authorized to Mr. Charles Burns

Estimated cost of the study will be:

☐ increased☐ decreased☒ not affected

Description of change order:

Section III. A. 2nd paragraph - the second sentence is to be changed to read as follows:

An additional examination of all eyes will be performed under U.V. illumination following application of one drop of 2% sodium fluorescein (U.S.P.) and 5 to 10 seconds afterward an isotonic sodium chloride (U.S.P.) rinse.

This change was made to conform with the Dawson Research Corporation standard operating procedures and the recommendation of our consultant ophthalmologist.
