Hello -

Attached is the revised version of the Run of Show. As you can see, I left the goals basically the same until the supporting bullets are final. On the last page, I listed the current goals breakdown of speakers and the proposed if we involve the goal "leaders". Tim - I know we talked to Bob about switching speakers midway through the goals and I am struggling with how to do that without it being awkward. Besides, I like the unified front to show that everyone is involved in the goals.

I did not make any changes to the slides since I believe the focus right now should be the ROS and the slides can follow - the main ones we need to create are the financial ones.

Thanks and let me know if you have any changes.
Diane
