Michael - I am attending the Agile Supply Chain kick-off luncheon next week and will be giving an update to the team on the development / go to market plans for ATP. I only have 15 minutes, so I'll use our initial deck as a starting point and then really cut down the material. Would you mind emailing me the final presentation that we gave on Monday as well as the pack samples and product samples and maybe even some of the marketing mix materials that I could use in my discussion.

The lunch is next Thursday. Thanks, Christy
