Dear Dr. Haslam,

Following my call upon you a week or so ago I think it might be a good plan, before we take the question of Gummed Paper too far, if I ask you to make comment on the samples enclosed which represent our reference A1.19 White Gummed Paper.

If you could tell us, please, if this will suit your purpose it would probably be safer than sending a supply down on a specially produced reel.

I shall therefore await your reply with interest.

Yours sincerely,

G. J. G. Smith,
Manager, Southern Area.
