

M E M O R A N D U M:

April 15, 1983

TO: MR. S. W. LINEBAUGH

CC: MR. L. L. SHOCKLEY
MR. J. P. PITTMAN
MR. J. L. KNOOP

FROM: MR. J. P. MARKHAM

SUBJECT: EVALUATION OF DIE-PRESSED GROOVED RODS,
YOUR MEMO OF 3-30-83

In reference to your above memo, be advised of the following:

1. You should use 2500 C tipping.
The standard 40 gram is material 37-040. The 35 gram (100 bobbins) will be shipped to Sam Heaton and coded material 37-XXX.
2. During each of the three test conditions, collect 50 random packages from across the run. These three X 50 packs should be identified and sent to R&D, attn. L. L. Shockley.

Mr. Shockley is requested to have these tested as follows:

Smoke - 20 ports each.
Ventilation Rate, prior to smoking
Firmness & Moisture - 10 sets each
