Sounds like a plan...and then I will get to be in the office for the fun!

Subject: Exalgo 32

Given that it's 5:20 in DC, FDA employees are probably at the bar by now.
So likelihood of approval today/ release tomorrow morning is extremely low.

Assuming the approval comes tomorrow, we will plan on putting the release out Monday morning at 7:30am/central -- along with the appropriate internal communications such as Mark's Message.

Cheers! -L
