006 In recent years, we've heard many different opinions about how smoking affects people's quality of life. For each of the following statements people have made to us about smoking, please tell me whether you agree strongly, agree somewhat, disagree somewhat, or disagree strongly.... Smoking is a major risk factor for life-threatening diseases such as lung cancer, emphysema, and heart disease

|                            |     |
|----------------------------|-----|
| Agree strongly/somewhat    | 94% |
| Disagree somewhat/strongly | 5   |
| Not sure                   | 1   |
